I have personally known seniors who needed Medicaid to cover their nursing home expenses.

Please tell us how these changes would impact you or people in your community.

Too many Georgians remain needlessly uninsured. The Governor's plan does more harm than good by spending more money to cover fewer Georgians, despite the investment by the state of millions of taxpayer dollars on consultants and study committees to even produce these proposals.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

When I lost my job and was over 50, suddenly my options for healthcare insurance were incredibly limited. I was turned down by a provider I had had in the past, because of a \$5 prescription my doctor had prescribed for adrenal support, to OPTIMIZE my health under a stressful situation. Despite a letter from him to the insurance company saying I did NOT have Addison's Disease--nor did I have any chronic or life-threatening illnesses or issues; no diabetes, no heart/lung/liver, etc., issues, no cancer, no smoking, no high BP/cholesterol, or anything contraindicative of a healthy, robust approach to life--but obviously because some accountant/actuarial/data analyst somewhere used a code for whatever, I was turned down for the insurance for the coverage I wanted by the provider I was used to going to for the best pricing.

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

I've not personally benefited from medicaid but do see it as something that helps those as less fortunate. It definitely has helped members of my own family.

Please tell us how these changes would impact you or people in your community.

I'm currently uninsured simply because it costs too much and thankfully, I'm very healthy, however, I would LOVE the peace of mind that comes with AFFORDABLE coverage. I'm not "poor enough" to qualify for any of the proposed, however, God forbid something does happen and I become one of those liabilities when instead with proactive solutions, I'll have a ready-made plan instead of chancing in, which is what I'm doing now.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

At first, ACA was "affordable" enough to help me keep up with my preventive care measures, however, it continues to skyrocket and I've "opted out"

Please tell us how these changes would impact you or people in your community.

I would continue to seek ways to avoid the healthcare industry altogether as it can't truly be trusted.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

Support full Medicaid expansion

Please tell us how these changes would impact you or people in your community.

I am a firm believer in the state using money and resources to have the most impact when possible. When I talk to people who currently work and don't have employer-based health care, they worry everyday about the costs of getting sick and how to pay for medical care or prescriptions when they already struggle to make ends meet.

Medicaid expansion, through the ACA, has been available to Georgia for eight years and Georgia leaders have rejected this solution for merely political reasons. If leaders really wanted to solve the health care crisis in our state , we could have been leveraging every state dollar with nearly \$9 from the federal government for years now and 400,000 plus people could have access to doctors and health care the need and deserve. This waiver proposal to do a partial expansion with people under 100% FPL and work requirements doesn't maximize the federal program, nor does it, provide the most cost-effective option for Georgia. To spend more money to cover fewer people is not fiscally effective approach. Furthermore, work requirements create additional barriers for people who need care.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how these changes would impact you or people in your community.

I have huge concerns about people not having access to healthcare.gov--a neutral intermediary for health care plans enrollment. Providing more flexibility with plans, may not maintain the high level of standards and coverage that ensure people have quality plans. We need to make sure that the market doesn't create sub-prime health benefit plans that leave consumers high and dry without care they desperately need.

Please tell us how Medicaid has helped you, your family, or your community.

I work both in the public school system in ga. and in the mental health field. Both in the school and in the mental health area the people I work with are usually the working poor who are either on medicaid or make too much for medicaid but too little to afford private insurance. Medicaid is the only way some of our students could have glasses or see the doctor. I have clients who have gone without medical treatment

because medicaid wouldn't cover a particular procedure.

Please tell us how these changes would impact you or people in your community.

Without Medicaid, many of our students and all of my clients would be without both medical and mental health services. Medical and mental health services should not be only for the wealthy. Many of our students are in families of the working poor. The parents are doing the best they can, but they cannot afford insurance, and, therefore, some of the medical and mental health services are not taken care of.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

When my son first graduated from college and was working, he was able to obtain insurance from the private insurance marketplace before he became eligible for insurance through his company. He is ADHD, so he needed coverage so he could afford his medication.

Please tell us how these changes would impact you or people in your community.

I oppose the Medicaid waivers as currently written because they provide coverage for only a fraction of the Georgians who need it. Our rural hospitals are closing; the ones that remain open have severe financial challenges. If all Georgians had insurance coverage (Medicaid expansion), providers of emergency services would not be

straddled with providing so much uninsured care and our hospitals could survive financially while providing life-saving services so their patients could survive medically.

These waivers also go out of their way to appeal to a politically conservative base without regard to practical implications. For example, the waivers would require that Medicaid recipients pay premiums; if they could afford premiums, they would not need Medicaid. This plan creates barriers to coverage. By only expanding coverage to the poverty level, the waivers necessarily exclude folks who make more than the poverty level but not enough to purchase health insurance. The work-reporting requirements are onerous and will be difficult to manage and report.

The State of Georgia needs to finally and fully expand Medicaid coverage so that our citizens and hospitals can survive.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

Georgia's decision not to decline federal government funding to fully expand Medicaid is costing Georgian's their lives. Georgia already has the highest maternal mortality rate in the US and it is 3x higher for African American women. While pregnant women are eligible for Medicaid, it only lasts until 60 days after pregnancy, when we know that people are at a higher risk for maternal mortality in the year following birth, not to mention their new infants need insurance far beyond their first 60 days. By declining to fully expand Medicaid (and opting for this far smaller expansion), you will continue to heart traditionally vulnerable populations like women of color. We cannot afford to continue to have uninsured Georgians, especially when there is federal funding to support this expansion.

Please tell us how these changes would impact you or people in your community.

With full Medicaid expansion, approx. 500,000 Georgian's would gain access to health

insurance. This would allow us to make better decisions for our health and the health of our families, especially around preventative care.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how these changes would impact you or people in your community.

These changes could greatly impact our community. Mental health services are essential health services and must be covered the same as other physical health services. Growing up with a best friend with OCD, I observed first hand how mental health services can be life saving. Recently, I have seen her struggle to cover the high cost mental health services and even forgo care. Without this coverage, people's lives are put at risk and you hinder their ability to be contributing members of society.

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

I worked in healthcare before I retired . I have seen what happens to families and how they take care of their health and the health of their children when they do t "qualify" for Medicaid.

Please tell us how these changes would impact you or people in your community.

If the partial Medicaid expansion as put forth by Governor Kemp is put into law there i100's of thousands of people will be left uncovered . Full expansion of medicaid will increase the number of people that qualify and will greatly increase the healthcare that they get..which in turn will (among other things) make less non emergent visits to the ER which will save hospitals lots of money for indigent care and maybe keep rural hospitals from closing!

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

My son who was laid off of a job before the ACA came to be, had to go on a very expensive COBRA plan because we literally could not buy him a health insurance policy because he has a preexisting condition! He went on the ACA insurance as soon as it was available and did away with pre existing conditions and was able to better care for himself!

Please tell us how these changes would impact you or people in your community.

If the private insurance waiver put forth from the Governor it will be devastating! First it won't go into effect for a couple of years and then will allow insurance companies to stop covering (among other things) pre existing conditions. And then anything else they decide not to cover!

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

I have a grandchild with a disability and Medicaid pays his medical bills which his parents' insurance does not cover. He is medically fragile and his medical bills have been substantial. This has truly helped him and the rest of his family. Further, after having worked as a welfare caseworker, I know how Medicaid has helped very poor families get the medical care they need to care for their families, and themselves, and

even when they make Georgia's terrible minimum wage, they can stay employed because they can maintain their health.

Please tell us how these changes would impact you or people in your community.

Georgia's minimum wage does not even match the US minimum wage. Too many Georgians do not make enough to afford to be able to work and pay for care for their children - - much less afford medical care for themselves or their children. Our rural hospitals desperately need Medicaid Expansion to stay open. Medicaid Expansion will help our economy as more people will be healthy enough to work and thus boost our consumer economy. It just makes sense.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

The ACA protections have meant that I can afford regular check-ups and no additional premiums due to my pre-existing conditions.

Please tell us how these changes would impact you or people in your community.

We never know what our health will be tomorrow. But because of increased costs for all the ACA requirements, we are tempted to hope we won't be in a car accident, and that we won't get a cancer diagnosis and thus pay lower premiums and then find we are not covered what what we really need.

It has helped tremendously

Please tell us how these changes would impact you or people in your community.

This changes would impact my family and my community and eve myself. We are tax payers making it check by check and some of my friends and family are disabled, and just making it through. It's important Georgia expands medicaid for all Georgia. We the people of Georgia contributors of the State deserve better regardless of how much we make. Let's do it for all.

Do you oppose these changes to private insurance?

I do not agree with limitations for healthcare at all. This should be a statewide right to have full coverage insurance we can all afford without breaking us or making us go hungry or die because we can't get the coverage we need or afford to even eat.

I really want the Governor to know that my daughter, who is now full time in graduate school (MBA) & until now for a good few years had been earning a good living working up to her full potential, would have lost the ability to enunciate if such barriers to her getting Medicaid had been in place when she was a preteen and needed the surgeon to operate on her mouth, which created a stop at the back of her mouth so she could

enunciate again, an ability she was fast losing at the time.

Please tell us how these changes would impact you or people in your community.

My age is 72, and a 72-year-old friend of mine cannot get Medicare because her ex-husband did not pay into Medicare, although he told her he was (in his business where she worked). She has disability because of PTSD from her marriage. She will have no health care without access to Medicaid despite having had 2 falls in the last few years, each of which resulted in fractures. Her income is too low to pay premiums.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

I would have never again been eligible for GYN care because of a negative outpatient endo biopsy, which was considered a pre-existing condition. Fortunately, when I turned 65, I got Medicare. I also know a family, both of whose sons are afflicted with bipolar disorder which impairs their ability to work long term. The older son has just been denied disability. They fear bankruptcy, etc.

Please tell us how Medicaid has helped you, your family, or your community.

Medicaid has been very helpful to my mother-in-law. She and her husband worked all their lives, he for Sears and she for the local school district in a school lunchroom. They raised four children, lived frugally, and did the best they could to ensure they had the proper means to care for themselves late in life. But, even with the best of intentions - insurance and retirement, resources have not been enough to cover the

costs of a skilled-care facility. She had been living with a daughter until her Alzheimer's and diabetes made it too difficult for them to continue caring for her. Medicaid has made it possible for her to use what resources she does have to pay as much as she can with some assistance. She is in a safe place where her diabetes continues to be properly managed with staff who can address the changes occurring due to the Alzheimer's.

Please tell us how these changes would impact you or people in your community.

When individuals do not have the health coverage they need someone pays - that someone is me. Not only am I paying but paying more than is necessary, a waste of my tax dollars.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how these changes would impact you or people in your community.

The private insurance marketplace is in no way great and extremely difficult to navigate. I need an unbiased source of health insurance information to ensure the choices made for my family and me will be the best ones. It is doubtful this information would come from any insurance company.

Please tell us how Medicaid has helped you, your family, or your community.

Medicaid helps our community by making us healthier. Being healthier increases productivity and quality of life. It's hard to over-estimate how important this is.

Please tell us how these changes would impact you or people in your community.

Expanding Medicaid would allow me to get health insurance for the first time since I worked in my former career as a laboratory technician in 2012. Thank goodness I am healthy, but like a lot of people, I'm one major illness or accident away from bankruptcy. We shouldn't have to live like this. Money is available from the federal government to provide healthcare for hardworking people like me -- take it.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

The ACA has helped many people gain coverage for the first time, to keep their coverage, or has made their coverage better. It has been amazingly beneficial and we need to support it.

Please tell us how these changes would impact you or people in your community.

Letting companies offer substandard plans would help them profit off giving us worse care. Obviously that doesn't help us. It's a bad idea.

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

I have Georgia friends who are parents of Downs Syndrome sons and daughter, born between 1988 and 1995. These young people have had two working parents, in loving homes, with health insurance from their jobs. But these Downs Syndrome young people, now adults, will NEVER be able you work a job, or do community service, or any of the "work requirements" required by Gov. Kemp's bill. They have been under

Medicaid all their lives, to provide for the medical support they need.

Also, many disabled children and adults are so impaired by their disabilities that employment, volunteerism, or community service is impossible. These Georgians must be covered by Medicaid, without conditions, so they may be supported in their homes or in group care homes.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how these changes would impact you or people in your community.

Firstly, these changes will not support complete coverage of preexisting conditions. This requirement of health insurance under the Affordable Care Act is key to most Georgians health care needs. Babies can be born with preexisting conditions. Parents could never afford to insure their children under cheap, under-care health insurance policies. Mental health care is essential for Georgians, without impediments. I have a grandson with bipolar. He has to have access to medications, daily, and has had to be hospitalized, in-patient adolescent mental health care facility for months at a time. It is criminal for Georgia and Gov. Kemp to remove any mental health coverage for Georgians. This is life and death for our family members and fellow Georgians.

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

Many people in my community depend on Medicaid. All people deserve basic healthcare. As a community we are paying for it anyway by hospitals charging paying customers more, and by hospitals closures and more. We need to at least cover healthcare for all.

Please tell us how these changes would impact you or people in your community.

If people do not have access to quality healthcare, they cannot be productive citizens. They cannot try new jobs or start businesses. People die without healthcare.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

Mental health Care is extremely important to every community. We have a problem with anger, guns, bullying. Mental healthcare can work but it needs to be easy and free.

Please tell us how these changes would impact you or people in your community.

If we make it difficult for people "on the edge" to get mental health help, we will have more mass shootings, more domestic violence, more child abuse. Our community needs help. We do not need barriers like lines and limited coverage. We must make access easy and quick in order to have a healthy population.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

I'm unsure of who within my family or community uses Medicaid but availability to it is necessary as many people and families should be provided health care even when they cannot afford it for themselves. Healthcare is a basic human right.

Please tell us how these changes would impact you or people in your community.

Georgia is already doing people a disservice by even entertaining these changes. Thousands of people who are already experience or are at risk for many health related issues would suffer (or suffer more) if not given access to the programs that would help them, including Medicaid. It is wrong to deny people coverage or access to coverage.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

I'm not sure I have a complete or well thought out answer for this at this time.

Please tell us how these changes would impact you or people in your community.

Health care costs are already expensive and by providing unbiased information, consumers have a better way to shop for their coverage. It is wrong to deny people the ability to research and obtain coverage or access to coverage.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

Medicaid has helped reduce cost of nursing home and elder care for my grandparents. It has and can be part of a safety net for all community residents who don't have the financial means to access basic services like health care.

Please tell us how these changes would impact you or people in your community.

My community will be healthier if all residents have access to needed health care, regardless of income. If everyone is able to maintain their health, it benefits all by reducing spread of disease, reducing burden on other public services, and generally increasing the overall quality of life in our community.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

The ACA has increased the number of residents of my community who have health insurance.

Please tell us how these changes would impact you or people in your community.

These changes, if implemented, would reduce the number of people in my community who have adequate health insurance.

May we contact you to hear more about your story?

I have three children currently using the mental health benefits in our plan. These visits are critical to their well being. Without coverage each visit would cost about \$175, with the coverage it's \$30. The proposed changes would be devastating to my family.

Please tell us how Medicaid has helped you, your family, or your community.

I have a sister-in-law who has needed medicaid for health coverage.

Please tell us how these changes would impact you or people in your community.

The changes proposed would cause even more hardship than today's market for low-cost health insurance. The individuals and families that truly need the help would be cut off or made to wait. Health care should be a right not a privilege.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

I have friends who are small business owners and were able to get much better rates under ACA.

Please tell us how these changes would impact you or people in your community.

I believe there are a lot of low income, under-covered families that would be cut off completely and go without health care insurance - then would end up in emergency rooms when major health problems arise.

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

I work in health care. Medicaid helps people get the primary care they need to prevent more costly, wasteful hospital visits.

Please tell us how these changes would impact you or people in your community.

People would be able to get primary care and afford their prescriptions so that they got better rather than sicker. I just saw a patient who could not afford her albuterol for her asthma inhaler. Very sad.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how these changes would impact you or people in your community.

I am sometimes embarrassed to be from Georgia, and my family has been here for generations. We have some of the world's greatest health care institutions right here in Atlanta, yet we also have very high numbers for maternal mortality, HIV, and other preventable conditions. All our health care research institutions are telling us that good, consistent primary care can prevent costly and painful later hospital stays. That patient who is able to get hypertension medication regularly is a lot less likely to have a heart attack, stroke, or costly kidney disease requiring dialysis. Covering more people will ultimately lower our state's health care costs because these costly stays will be prevented.

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

As a Public Health Nurse, otherwise uninsured families have access to health care because of Medicaid. County Health Departments depend on Medicaid revenue to continue services.

Please tell us how these changes would impact you or people in your community.

Too many who could be Medicaid-eligible are uninsured. Some do not get preventive services and later have expensive consequences that require uncompensated hospital services.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how these changes would impact you or people in your community.

Uncovered services may result in expensive uncompensated consequences.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

Providing healthcare through primary care physicians is much more cost effective than treating the uninsured in hospital emergency rooms and also frees up emergency room resources for true emergency cases giving them more timely care.

Paying for care for a greater number of people through medicaid and other insurance programs reduces unpaid care right offs for rural and indigent care hospitals helping them remain financially viable.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

I receive my health insurance with no subsidies through the ACA marketplace. Without that coverage, I could never afford a medication I need to stay alive that costs over \$3,000 per month at retail.

Please tell us how these changes would impact you or people in your community.

Without the ability to afford the life saving medication I need, I would die within 2 years.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

I do not agree with the work requirement for adults whose income is below the FPL. Documenting work/volunteer/training hours will be too hard to implement. A waiver should be available to those with a signed doctor's certificate. If the work requirement stands in the court system, then care-giving should be a means to qualify.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how these changes would impact you or people in your community.

How can consumers make informed decisions when they must enroll in private health plans through broker websites or insurance company websites? The system of unbiased licensed application counselors who provide free help must remain.

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

a member of my family depends on traditional Medicaid and another on ACA .

Thank God for these programs that give them access to Their healthcare needs. One is disabled and the other works in an industry' that does not offer health care insurance. I consider every bit of tax money i pay going to these program s with it for my family and others in similar situations.

Please tell us how these changes would impact you or people in your community.

Not fully expanding Medicaid would put many on the program at risk for being without basic health care if they were in between jobs or lost their job. They would be forced to use the hospital emergency room which would cost taxpayers even more and who are already over burdened..

Please tell us how Medicaid has helped you, your family, or your community.

A neighbor lost her job after an injury and was about to obtain insurance through Medicaid. She was able to keep her house and eventually her health returned.

Please tell us how these changes would impact you or people in your community.

I would love to see more people covered. I look at people in my neighborhood who have hourly wage jobs and are not covered under employer's plan or any subsidized plan because they do not make enough money. They work very hard and when they get ill it harms their entire family.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

My youngest child who is disabled was off insurance until the ACA came into being. I was borrowing money from my very meager retirement plan to take her to the doctor and buy her medication.

Please tell us how these changes would impact you or people in your community.

I am very worried about the impact of hidden fees, unclear language, and more if plans are not ACA approved which would surely happen. I have family, friends, and neighbors who purchase their insurance through healthcare.gov and this could have devastating . I think it is a very risky proposition for Georgia to pull away from something that works and to build another system on top of that. I wholeheartedly oppose this idea. Georgians have been well served in being able to compare plans and make informed choices. There is no reason to change that. None.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

This plan doesn't seem to help all those in need. Also - I do Not support the requirement to pay premiums. Currently, Medicaid recipients do not pay premiums.

Please tell us how Medicaid has helped you, your family, or your community.

My Mother is retired and on a fixed income. She wouldn't be able to afford premiums or additional expenses.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

I recently decided to stay home with our children . Since my Husband works for himself, our family was insured through my job. After leaving - we had to enroll in an independent plant. The initial search was nothing short of overwhelming. The plan I almost signed up with did cover what the agent claimed it did. Luckily - I did My research before signing up. I'm now on a plan covered by ACA. Due to my recent bout with Breast Cancer - covering pre-existing conditions is critical for me to continue care without concern of being left with large medical expenses.

Please tell us how these changes would impact you or people in your community.

The cost of individual plans will only increase! The confusion of what health plans work would only be more confusing as more health insurance companies flood the market.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

Support full Medicaid expansion

Please tell us how these changes would impact you or people in your community.

This proposal costs more and covers fewer. As a taxpayer and one who feels that Medicaid should be expanded so that individuals can stay out of the emergency room, get better help for their health, keep rural hospitals in the black and be a reasonable price, I oppose the Governor's plan which I feel would fulfill none of these objectives.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how these changes would impact you or people in your community.

Consumers should be able to shop for insurance on healthcare.gov rather than website run by insurance companies who are concerned with profit rather than health.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

Medicaid helps the growing diabetic population stay stable and productive members of their family rather than being hospitalized from unaffordable costs. Those near the poverty level that can't afford the inflated costs, for instance of insulin, have expensive hospitalizations. These people, when sick, require caregivers, instead of being at work.

Please tell us how these changes would impact you or people in your community.

Key to controlling chronic disease is to control behavior. So, counseling with less drugs, psychiatric care, and education such as Hamilton Nutrition Center in Dalton are making tremendous improvements in compliance and better self care, which is more cost effective. Must have these services available for the poor population, otherwise the taxpayer will be overburdened with catastrophic costs.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

ACA has helped our community by keeping vulnerable populations under care, rather than high case mix population being noncompliant due to unaffordable costs, which shifts that cost of catastrophic care to taxpayers, and results in more closure of rural hospitals.

Please tell us how these changes would impact you or people in your community.

Costs would go up. The sick who can't afford care Don go away. They end up with late presentations of disease overburdening hospitals.

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

My uncle has been helped with Medicaid. It had been a life saver to our family.

Please tell us how these changes would impact you or people in your community.

These changes wouldn't really help many people. By keeping the majority of the uninsured without insurance, it will make business in Georgia much less competitive with other states.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

I have ADHD and the mental health services have made it possible for my to be the best I can be at my job and excel in my career. Without it, I would not be the best employee I can be.

Please tell us how these changes would impact you or people in your community.

It would make it even more expensive for me to manage my ADHD. I would have to spend more of my hard earned money just to be able to keep being as good an employee as I currently am. That's more money going to big pharma and less going to spending in the local state economy.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

Medicaid is a lifeline for many people in my community. I work with too many people who can't afford health insurance and who use the ER as their first line of defense when they get sick or injured. This affects their ability to hold stable jobs, provide for their families, and escape poverty. Medicaid expansion is crucial to Georgia's success.

Please tell us how these changes would impact you or people in your community.

It would get more people into treatment for chronic conditions and help them live a better quality of life.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

I have a pre-existing condition and was unable to obtain any kind of health coverage before the ACA unless it was offered by an employer but I work as a nanny so I have never had that option. The ACA while not perfect has been a lifesaver.

Please tell us how these changes would impact you or people in your community.

All of these changes to private insurance impact me and would make it harder and more expensive for me to have insurance. In what scenario do these proposals help anyone? As I said above, ACA is not perfect. I still pay a fairly high premium, my deductible is so high I can't really use the insurance I have but if you were to eliminate it completely so that I that I couldn't afford it or that I would no longer qualify, what happens when I get sick or god-forbid have an accident? I'm no longer able to work which means I'm not making money, which means I'm not paying taxes, I'm not buying anything and putting money back into the economy and I'm not contributing to society. In an effort to "stabilize costs" this proposal is really just creating a smaller, weaker safety net.

Please tell us how Medicaid has helped you, your family, or your community.

Every Georgian who has been healthier bc of Medicaid has made this state better and their families have been able to use their own resources for better lives: this all contributes to the community a n which I'm raising my family. Also, the many residents of Lutheran Towers in midtown ATL add immeasurably to the community of my beloved church -- most of them rely on Medicare.

Please tell us how these changes would impact you or people in your community.

I'm blessed with two bright, engaged kids. Keeping them in GA for college and to establish their adult lives will benefit not just my mama's heart but our community. But their economic opportunity and their interest in staying here will drop if this state institutes such regressive policies.

Do you oppose these changes to private insurance?

I am lucky to have health insurance through my employer. but if i were to lose my job for any reason i would need to or i might need to have Medicaid. It is an important safety net for our community. It is important to me and I VOTE!

Please tell us how these changes would impact you or people in your community.

On a very basic level , when I see the goverment being fiscally irresponsible by not taking federal dollars for health care that we are entitled to... makes me lose trust in our state leadership. .

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

I have several neighbors who are selfemployed and if not for ACA they would not have any health coverage

Please tell us how these changes would impact you or people in your community.

I am especally upset about the potentail reduction in mental health coverage. It is shortsighted to not see that providing mental health serices as bas ic health services, is a slippery slope that can lead to more homeless people , more people in prison and more people suffering needlessly, more suicides.... THERE IS NO HEALTH WITHOUT MENTAL HEALTH!

I would not have been insured since 2014 if it were not for ACA. In that time I had an emergency appendectomy and knee replacement. I cannot afford insurance for myself and my husband without a subsidy. I have had medical debt in the past that took many years to pay off and that was because I was able to show the hospital what I earned. They reduced the bill by 20,000.00 and it still took 7 years to pay off the remainder.

Medicaid is needed to help those among us who are 'working poor', as well as those who have briefly fallen on hard times. I was never 'poor enough' to qualify for medicaid in my 20s so I went without healthcare for over a decade. I was a lucky person not to need it then, but not everyone is going to be lucky.

It only makes sense to do all we can to maintain a healthy community- when people don't have healthcare, they end up in expensive emergency rooms, while many conditions could have been treated and managed at much lower cost with regular healthcare.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how these changes would impact you or people in your community.

We can't trust insurance companies to put people over profits. Any cuts to mental health coverage can lead to crime and suicide. Bottom line: these proposed changes pay for tax cuts for the rich, which are anti-community.

Do you support this proposal or wish Georgia would go ahead and fully expand Medicaid?

Support full Medicaid expansion

Please tell us how Medicaid has helped you, your family, or your community.

Getting treatment, medical care

Please tell us how these changes would impact you or people in your community.

I just lost the love of my life. He couldn't afford health insurance, and contrary to what is touted ER care is not an alternative. I'm angry that someone I loved died because Georgia elected officials do NOT care.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

They are about profits above care. They are outrageously overpriced, and they are a con.

Please tell us how these changes would impact you or people in your community.

Well, you have essentially killed the love of my life with your greed.

A healthy community helps everyone. I have been committed to community mental health as a mental health practitioner and I see the effects on health and mental health, of those who do not have access to adequate or even basic care. Let's not live in a community where parents have to choose between feeding their kids, putting gas in the car, or paying for amoxicillin next time someone in their family gets strep.

Please tell us how these changes would impact you or people in your community.

My community is a thriving cross section of people with different jobs, different innate abilities, and different needs. I have a stronger community when those around me are healthy and secure.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

In my private practice, I see individuals with private marketplace and ACA plans. I see them benefit from receiving healthcare that is affordable, and I see them struggle when healthcare decisions must be made based on insurance company caps or the threat of losing coverage. We all see how individuals and their communities suffer when adequate access to mental healthcare is not available.

It helped my father with nursing home care. It is invaluable to the many low income people in Gwinnett who do not qualify for or have other health insurance options.

Please tell us how these changes would impact you or people in your community.

Allowing full expansion would cover tens of thousands of people in Gwinnett that will reduce costs from emergency room visits that get passed on to patients with health insurance through higher costs, it helps rural hospitals provide care and provides better healthcare outcomes (and less costly outcomes) for patients than for patients who are low income and have no other insurance and cannot afford to purchase private healthcare insurance.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

My adult son has a preexisting condition that would largely prevent him from getting private health insurance if preexisting coverage protections were removed. It also enables him to currently purchase insurance he can afford with subsidies. Eliminating those would mean he would not have insurance.

Please tell us how these changes would impact you or people in your community.

I assume my facilities situation is similar to those of many and the ability to get quality affordable insurance is important and should not be taken away.

As a design educator, I had conversations with many students about their goals to become self employed. Fears about lacking health care coverage loomed large in their decisions to start new businesses. I've kept up with many after graduation, and have been frustrated how frequently they been unable to overcome this hurdle. One shouldn't have to inherit from parents to open a small design shop.

Please tell us how these changes would impact you or people in your community.

Small businesses are the growth engine of Georgia's economy, and it is cut short for too many hard working, talented young people. Insufficient medical coverage undercuts prosperity.

Do you oppose these changes to private insurance?

Oppose these changes

Please tell us how the private insurance marketplace or other ACA protections have helped you, your family, or your community.

Mental health coverage helps people stay employed, productive, and out of institutions. Investing in mental health has huge payouts for the state, which already pays dearly to incarcerate many who didn't get mental health care when they needed it.

Please tell us how these changes would impact you or people in your community.

Many Georgians simply won't get mental health care if it's too expensive. Counseling and psychiatric help are already heavily stigmatized, and insurers shouldn't be allowed to treat it differently than other health problems.
