

# Electronic Visit Verification (EVV)

## Interactive Voice Recognition Instructions

April 2021

The Department of Community Health (DCH) is implementing Electronic Visit Verification (EVV) for Medicaid-covered Personal Care Services (PCS) and Home Health Care Services (HHCS) that require an in-home visit by a provider by July 1<sup>st</sup>, 2021 and January 1<sup>st</sup>, 2023, respectively. EVV is an electronic system that gives providers, care coordinators, and DCH access to service delivery information in real-time. EVV validates that members receive the services they are approved to receive, that there are no gaps in care, and helps to reduce fraud in home care delivery.

The EVV system electronically confirms that home or community-based service visits occur by keeping track of six points of data:

- The type of service;
- The date of service;
- The time the service started and the time the service ended;
- The location of the service;
- The name of the person providing the service; and
- The name of the person receiving the service.

Conduent is the Georgia EVV Solution vendor who is in partnership with Netsmart to provide EVV services. Netsmart uses an app on a smartphone or tablet to document the required EVV information.

DCH recognizes smartphones may not be accessible for all waiver participants and their consumer-direct employees or aides. To accommodate these situations, Netsmart offers an option for documenting visits using a landline phone. This option is known as interactive voice response (IVR). If the Netsmart EVV+ mobile application cannot be used for one of the following reasons, the use of IVR can be requested:

- The waiver participant and/or aide does not have a smartphone or tablet that can be used and cannot obtain one;
- Documented medical reason where a cell phone application cannot be utilized within a specific vicinity of the waiver participant; and/or
- The waiver participant and/or aide have a held religious belief related to the use of technology.

### **Before requesting the use of IVR, please consider the following:**

- The waiver participant and aide should speak to discuss which EVV system it plans to use.
- DCH is coordinating IVR requests for all consumer directed individuals using the Netsmart EVV+ Solution and Fiscal Intermediaries. If a Fiscal Intermediary is using a third-party vendor for EVV, the waiver participant and/or consumer-direct service provider will need to discuss whether IVR is an option.

- The waiver participant must have a landline phone. IVR cannot be used with a cell phone.
- Visits documented using IVR must be scheduled using the Netsmart online dashboard before the visit begins. The waiver participant will need to make a plan for scheduling visits online. If a visit is not scheduled before it begins, the consumer-directed aide will not be able to start the visit using IVR.
- With IVR, the waiver participant is still able to go into the community during a service visit, however, the visit must start and end at the waiver participant's home so it can be documented via IVR.

If a consumer directed participant wishes to proceed with the use of IVR, please complete the attached form. The form includes instructions on how to fill it out and return it to DCH.

If you have questions about IVR, please email DCH at [evv.ivr\\_requests@dch.ga.gov](mailto:evv.ivr_requests@dch.ga.gov).

# Electronic Visit Verification (EVV)

## Interactive Voice Recognition Form and Instructions

Georgia 1915(c) Medicaid-covered Personal Care Services (PCS) and Home Health Care Services (HHCS) waiver participants requesting the use of Interactive Voice Response (IVR) to document visits via electronic visit verification (EVV) instead of using the Netsmart EVV+ mobile app must complete the following request form. Please note that **this form is only applicable to waiver participants who receive services through participant or self-direction**. If the waiver participant’s Fiscal Intermediary is using a third-party vendor for EVV, the waiver participant will need to discuss whether IVR is an option with their agency.

### FORM INSTRUCTIONS

Please note that **all information on the form is required** for approval.

1. Complete the “Waiver Participant Information” section.
2. Complete the “Preferred Contact Method” section.
3. Choose the participant’s waiver program. Only one option should be selected.
4. Choose the “Reason for Requesting IVR.” Please select only one option. If the “Other” option is selected, please provide additional details about the need to use IVR.
5. Please describe how visits will be scheduled using the Netsmart EVV online dashboard.
6. Please enter the name, phone number, and email address for each of your paid caregivers who will be using IVR.
7. Once the form is complete, email it to [evv.ivr\\_requests@dch.ga.gov](mailto:evv.ivr_requests@dch.ga.gov).
8. If you have questions about completing the form, email: [evv.ivr\\_requests@dch.ga.gov](mailto:evv.ivr_requests@dch.ga.gov).
