STATE/TERRITORY: GEORGIA

CASE MANAGEMENT SERVICES

A. Target Group: Pregnant Women under age 21 and other pregnant women at risk for adverse outcomes.

B. Areas of State in which services will be provided:

X Entire State.

Only in the following geographic areas (Authority of section 1915 (g) (1) of the Act is invoked to provide services less than Statewide):

C. Comparability of Services:

Services are provided in accordance with section 1902 (a) (10) (B) of the Act.

X Services are not comparable in amount, duration, and scope.

Authority of section 1915 (g) (1) of the Act is invoked to provide services without regard to the requirements of section 1901 (a) (19) (B) of the Act.

Definition of Service:

Prenatal case management is a set of interrelated activities for coordinating and monitoring appropriate services for eligible pregnant women. The purpose of case management services is to assist those pregnant women eligible for Medicaid in gaining access to needed medical, nutritional, social, educational and other services; to encourage the use of cost-effective medical care through referrals to appropriate providers; and to discourage overutilization of costly services. Case management services will provide necessary coordination with providers of non-medical services, nutrition programs like WIC, or educational agencies, when services are needed.

The set of interrelated activities are as follows:

1. Comprehensive needs assessment of clients identified as eligible for Medicaid Case Management services, including medical, nutritional, psychosocial and health educational assessments.

2. Development and implementation of an individualized service plan to meet the service needs of the client.
STATE/TERRITORY: GEORGIA

3. Assistance to the client is locating providers and making the necessary connections to services identified in the service plan.
4. Implementation of a tracking system to ensure that the client received needed services.
5. Coordination of services needed by the client with multiple providers in the community.
6. Monitoring and follow-up to ensure that the services are received, are adequate to meet the client's needs and are consistent with appropriate quality of care.

These activities are structured to be in conformance with 1902(a)(23) and not to duplicate any other service reimbursed in the Medicaid program.

E. Qualification of Providers:

Enrollment will be accomplished in accordance with Section 1902(a)(23) of the Act. Enrollment is open to all providers who can meet the following requirements:

1. Provider Qualifications:
   a. Must have qualified case manager(s) and the capacity to provide the full range of perinatal case management services.
   b. Must meet applicable state and federal laws governing the participation of providers in the Medicaid program.
   c. Must have demonstrated, direct experience in the delivery of maternal and child health services (i.e., prenatal, family planning, immunization, EPSDT and WIC services)
   d. Must have a demonstrated ability to provide or coordinate pregnancy-related health and human services.
   e. Case management staff must complete training before becoming a qualified provider for perinatal case management.
   f. In order to avoid duplication of services and to promote effective community level networking, case management providers must provide written notification to the local health department(s) for the geographic area or areas to be served and agree to coordinate all appropriate referrals.
STATE/TERRITORY: GEORGIA

2. Case Management Staff Qualifications:
   a. RN or Social Worker licensed in Georgia with a minimum of one year of experience in working with pregnant women.
   b. Paraprofessionals with one year of human service delivery experience or documented college level course work in health or human services may be used to support case management services when performed under the supervision of a qualified case management RN or social worker.

F. The State assures that the provision of perinatal case management services will not restrict an individual's free choice of providers in violation of Section 1902(a)(23) of the Act.
   1. Eligible recipients will have free choice of the providers of case management services.
   2. Eligible recipients will have free choice of the providers of other medical care under the plan.

G. Payment for case management services under the plan does not duplicate payments made to public agencies or private entities under other program authorities for the same purpose.

D. Definition of Services

Case Management is a set of interrelated activities for identifying, coordinating, and reviewing the delivery of appropriate services for Medicaid eligible adults with AIDS who are at the greatest risk of hospitalization and need assistance with acute problem solving. The purpose of case management is to assist individuals in the target group in gaining access to needed medical, nutritional, social, educational, psychological, transportation, housing, legal, financial, and other services; and to reduce the incidence of costs of hospitalization by encouraging the use of various community resources through referral to appropriate providers.
The set of interrelated activities is as follows:

1. Obtaining a medical assessment from the recipient's primary physician; or physician, physician's assistant or nurse practitioner of the recipient's choice; conducting a psychosocial assessment in order to establish a comprehensive case file for the development and implementation of an individualized service plan to meet the assessed service needs of the eligible Medicaid recipient with AIDS. Establishing priorities for the initial linkages with providers. This unit of service may be billed only once for each eligible recipient.

2. Assisting the eligible recipient with AIDS in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.

3. Monitoring and following-up with the eligible recipient and service providers to determine that the services received are adequate in meeting the recipient's assessed needs. Case management follow-up services are limited to twelve (12) visits annually.

4. Providing reassessment of eligible recipients with AIDS to determine the services needed to resolve any crisis situation resulting from changes in the recipient's medical condition, loss of social support, employment, housing, legal problems or other significant events. This level of follow-up services is limited to three (3) services annually.

D. Definition of Services

Children at-risk case management is a set of interrelated activities identifying, coordinating, and reviewing the delivery of appropriate services for eligible at-risk children. The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing, and other services, and to encourage the use of various community resources through referral to appropriate providers. Case management services will provide necessary coordination with the providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation, and other services when needed.
The set of interrelated activities are as follows:

1. Establishing the comprehensive case file for development and implementation of an individualized service plan to meet the assessed service needs of the eligible child. Establishing priorities for initial linkages with providers. This unit of service may be billed only once for each eligible child.

2. Assistance to the eligible child in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.

3. Monitoring and follow-up with the eligible child and service providers to determine that the services received are adequate in meeting the child's assessed needs. Case management follow-up services are limited to 12 visits annually.

4. Reassessment of eligible children to determine the services needed to resolve any crisis situation resulting from divorce, death, separation, family structure changes, changes in living conditions, or other events.

D. Definition of Services:

Children at-risk case management is a set of interrelated activities for identifying, coordinating, and reviewing the delivery of appropriate services for eligible at-risk children. The purpose of case management services is to assist these targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing and other services; and to encourage the use of various community resources through referral to appropriate providers. Case Management services will provide necessary coordinations with providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation, and other services when needed.

The set of interrelated activities are as follows:

1. Establishing the comprehensive case file for development and implementation of an individualized service plan to meet the assessed service needs of the eligible recipient. Establishing priorities for initial linkages with providers. This unit of service may be billed only once for each recipient.

2. Assistance to the eligible recipient in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.

3. Monitoring and follow-up with eligible recipients and service providers to determine that the services received are adequate in meeting the recipient's assessed needs. Case management follow-up services are limited to 12 units annually.

4. Reassessment of eligible recipients to determine the services needed to resolve any crisis situation resulting from divorce, death, separation, family structure changes, changes in living conditions, or other events.

D. Definition of Services:

Children at-risk case management is a set of interrelated activities for identifying, coordinating, and reviewing the delivery of appropriate services for eligible at-risk children. The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing, and other services; and to encourage the use of various community resources through referral to appropriate providers. Case management services will provide necessary coordination with the providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation, and other services when needed.

The set of interrelated activities are as follows:

1. Establishing the comprehensive case file for development and implementation of an individualized service plan to meet the assessed service needs of the eligible child. Establishing priorities for initial linkages with providers. This unit of service may be billed only once for each eligible child.

2. Assistance to the eligible child in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.

D. Definition of Services:

Children at-risk case management is a set of interrelated activities for identifying, coordinating, and reviewing the delivery of appropriate services for eligible at-risk children. The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing, and other services; and to encourage the use of various community resources through referral to appropriate providers. Case management services will provide necessary coordination with providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation, and other services when needed.

The set of interrelated activities are as follows:

1. Establishing the comprehensive case file for development and implementation of an individualized service plan to meet the assessed service needs of the eligible child. Establishing priorities for initial linkages with providers. This unit of service may be billed only once for each eligible child.

2. Assistance to the eligible child in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.

3. Monitoring and follow-up with the eligible child and service providers to determine that the services received are adequate in meeting the child's assessed needs. Case management follow-up services are limited to 12 visits annually.

4. Reassessment of eligible children to determine the services needed to resolve any crisis situation resulting from divorce, death, separation, family structure changes, changes in living conditions, or other events.

D. Definition of Services:

Children at-risk case management is a set of interrelated activities for identifying, coordinating, and reviewing the delivery of appropriate services for eligible at-risk children.

The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing and other services; and to encourage the use of various community resources through referral to appropriate providers.

Case Management services will provide necessary coordination with providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation, and other services when needed.

The set of interrelated activities are as follows:

1. Establishing the comprehensive case file for development and implementation of an individualized service plan to meet the assessed service needs of the eligible child. Establishing priorities for initial linkages with providers. This unit of service may be billed only once for each recipient.

2. Assistance to the eligible child in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.

C. Comparability of Services

[X] Services are not comparable in amount, duration, and scope. Authority of Section 1915(g)(1) of the Act is invoked to provide services without regard to the requirements of Section 1902(a)(10)(B) of the Act.

D. Definition of Services:

Children at-risk case management is a set of interrelated activities for identifying, coordinating, and reviewing the delivery of appropriate services for eligible at-risk children.

The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing, and other services; and to encourage the use of various community resources through referral to appropriate providers.

Case Management services will provide necessary coordination with providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation, and other services when needed.

The set of interrelated activities are as follows:

1. Establishing the comprehensive case file for development and implementation of an individualized service plan to meet the assessed service needs of the eligible child. Establishing priorities for initial linkages with providers. This unit of service may be billed only once for each recipient.

2. Assistance to the eligible child in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.
D. Definition of Services: (continued)

3. Monitoring and follow-up with the eligible child and service providers to determine that the services received are adequate in meeting the child’s assessed needs. Case management follow-up services are limited to 12 units annually.

4. Reassessment of eligible children to determine the services needed to resolve any crisis situation resulting from divorce, death, separation, family structure changes, changes in living conditions, or other events.

D. Definition of Services:

Children at-risk case management is a set of interrelated activities for identifying, coordinating, and reviewing the delivery of appropriate services for eligible at-risk children.

The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing and other services; and to encourage the use of various community resources through referral to appropriate providers.

Case Management services will provide necessary coordination with providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation, and other services when needed.

The set of interrelated activities are as follows:

1. Establishing the comprehensive case file for development and implementation of an individualized service plan to meet the assessed service needs of the eligible child. Establishing priorities for initial linkages with providers. This unit of service may be billed only once for each recipient.

2. Assistance to the eligible child in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.
D. Definition of Services: (continued)

3. Monitoring and follow-up with the eligible child and service providers to determine that the services received are adequate in meeting the child's assessed needs. Case management follow-up services are limited to 12 units annually.

4. Reassessment of eligible children to determine the services needed to resolve any crisis situation resulting from divorce, death, separation, family structure changes, changes in living conditions, or other events.

D. Definition of Services:

Children at-risk case management services is a set of interrelated activities for identifying, coordinating and reviewing the delivery of appropriate services for eligible at-risk children.

The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing and other services; and to encourage the use of various community resources through referral to appropriate providers.

Case Management services will provide necessary coordination with providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation and other services when needed.

The set of interrelated activities are as follows:

1. Establishing the comprehensive case file for development and implementation of an individualized service plan to meet the assessed service needs of the eligible child. Establishing priorities for initial linkages with providers. This unit of service may be billed only once for each recipient.

2. Assistance to the eligible child in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.

Supersedes Approval Date JAN 23, 2002 Effective Date OCT 01, 2001
3. Monitoring and follow-up with the eligible child and service providers to determine that the services received are adequate in meeting the child's assessed needs. Case management follow-up services are limited to 12 visits annually.

4. Reassessment of eligible children to determine the services needed to resolve any crisis situation resulting from divorce, death separation, family structure changes, changes in living conditions, or other events.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State/Territory: Georgia

Special Education Service Coordination Case Management Services
(Known as Targeted Case Management (TCM))

A. Target Group:

Children ages 3-20 years old who are Medicaid eligible and whom have disabilities under the Individuals with Disabilities Education Act (IDEA) with coverable conditions as documented in their Individual Education Program (IEP) or IFSP (Individual Family Services Plan). A child is eligible to receive comprehensive Special Education Service Coordination case management services (TCM) under the Georgia Medical Assistance Program when all of the following conditions are met:

- The child has an active IEP with special education service coordination listed as a necessary service; and
- The IEP contains Medicaid coverable medical (health-related) services.

B. Comparability of Services:

[X] Services are not comparable in amount, duration and scope. Authority of Section 1915(g)(1) of the Act is invoked to provide services without regard to requirements of Section 1902(a)(10)(B) of the Act.

C. Areas of State in which services will be provided:

[X] Entire State (180 schools or local education agencies)

[ ] Only in the following geographic areas (authority of Section 1915(g)(1) of the Act is invoked to provide services less than statewide): All 180 school districts in GA.
D. Definition of Services:

Special Education Service Coordination case management means ongoing service coordination activities, carried out to assist children receiving special education, as indicated by the child’s IEP or IFSP to assist the recipient in gaining access to the appropriate and needed services. It also involves monitoring the recipients to assure needed medical services are received and are adequate in meeting each child’s needs.

1) Coordinating the process of the IEP development,
2) Coordinating the implementation of the IEP, and
3) Monitoring and follow-up on the targeted recipients to assure that required medical services are received and are adequate in meeting each child’s needs.

Special education service coordination focuses on medical services detailed in the child’s IEP. However, the clearly defined nature of special education service coordination eliminates duplication of service coordination activities and any overlap of responsibilities.

A single Service Coordinator (case manager) should be named in the child’s IEP.

Special Education Service Coordination Case Management activities include, but are not limited to:

1. Coordinating the performance of medical evaluations and assessments that the child needs;
2. Facilitating and participating in the development, review, and evaluation of the IEP;
3. Linking and coordinating medical services across private and public agency lines; and
4. Reassessing and follow-up, as required, to ensure medical needs of the student are met.

The department will only pay for case management activities that are over and above the provider’s usual assigned duties and responsibilities.

The Service Coordination case management records for special education must be maintained in the child’s record. All contacts with or on behalf of a child must be documented in the same manner as other covered services. (This mean that the health-related services, outlined in the child’s IEP, are covered under the school-based Children’s Intervention School Services [CISS] program and must be documented according to the CISS program policies and procedures and as defined in the State Plan.)

Services which exceed the limitations must be approved prior to service delivery.

Required Documentation

Service coordination case management services for special education children with an IEP must be documented with each encounter. The following information must be maintained for each encounter: date of service, name of the student, the name of the individual providing the service, the specialty, discipline or role of the individual providing the service, the nature of the billable activity, the method of service delivery (examples: telephone contact, correspondence, face to face, etc.), the group or individual with whom engaged, and the time span of the activity. Documentation materials, including IEPs, should be maintained for at least five years after service delivery.

E. Qualifications of Providers:

Provider Qualifications
The individual must possess the following qualifications:

- An individual who possesses a baccalaureate degree with a major in special education, social services, psychology, or a related field (behavioral health, or social sciences), or
- Registered Nurse.

In addition to meeting at least one of the above criteria, the service coordinator must also possess demonstrated knowledge and understanding of all of the following:

- Medicaid regulations related to the provision of IEP services;
- The nature and scope of services covered under IDEA;
- Provision of direct care services to individuals with special needs; and
- Provision of culturally competent services within the culture of the community being served.

TN No. 01-027  Approval Date JUN 04 2002  Effective Date JUL 01 2001
Supersedes  TN No. New.
Exclusions

- Medicaid will not reimburse case management services, which duplicate other case management services and are provided to eligible recipients through other Targeted Case Management programs.

- Service coordination case management services (TCM) as defined in the State Plan will not be eligible for FFP at the administrative rate, for the same types of services furnished to the same recipients.

- Recipients cannot receive another direct billable service at the same date and time they are receiving TCM.

- The Service Coordinator (case manager) cannot be the direct therapy provider.

F. The State assures that the provision of case management services will not restrict the children and their family freedom of choice of providers in violations of Section 1902 (a) (23) of the Act.

1. Eligible recipients will have the free choice of the providers of special education service coordination case management services.

2. Eligible recipients will have the free choice of providers for other Medicaid services or medical care under the plan.

G. Payment for case management services under the plan does not duplicate payments made to public agencies or private entities under other program authorities for this same purpose. Reimbursement methodology is found in Attachment 4.10-B, pages 5d and 5e.

D. Definition of Services:

Children at-risk case management services is a set of interrelated activities for identifying, coordinating and reviewing the delivery of appropriate services for eligible at-risk children.

The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing and other services; and to encourage the use of various community resources through referral to appropriate providers.

Case Management services will provide necessary coordination with providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation and other services when needed.

The set of interrelated activities are as follows:

1. Establishing the comprehensive case file for development and implementation of an individualized service plan to meet the assessed service needs of the eligible child. Establishing priorities for initial linkages with providers. This unit of service may be billed only once for each recipient.

2. Assistance to the eligible child in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.
