Validation of Performance Measures for Peach State Health Plan

Validation Overview

Validation of performance measures is one of three mandatory external quality review (EQR) activities that the Balanced Budget Act of 1997 (BBA) requires state Medicaid agencies to perform. Health Services Advisory Group, Inc. (HSAG), the external quality review organization (EQRO) for the Department of Community Health (DCH), conducted the validation activities. The DCH contracts with three care management organizations (CMOs) to provide services to Medicaid managed care enrollees and PeachCare for Kids® enrollees. PeachCare for Kids® is the name of Georgia's stand-alone Children's Health Insurance Program (CHIP). The DCH identified a set of performance measures that were calculated and reported by the CMOs for validation. HSAG conducted the validation activities as outlined in the Centers for Medicare & Medicaid Services (CMS) publication, *EQR Protocol 2: Validation of Performance Measures Reported by the MCO: A Mandatory Protocol for External Quality Review (EQR)*, Version 2.0, September 2012.

Care Management Organization (CMO) Information

HSAG validated performance measures calculated and reported by Peach State Health Plan (Peach State). Information about Peach State appears in Table 1.

Table 1—Peach State Health Plan Information

CMO Name:	Peach State Health Plan
CMO Location:	3200 Highlands Parkway SE, Suite 300 Smyrna, GA 30082
CMO Contact:	Joyce McElwain, Senior Director, Quality Improvement
Contact Telephone Number:	678.556.2344
Contact E-mail Address:	jmcelwain@centene.com
Site Visit Date:	April 18, 2013

Performance Measures Validated

HSAG validated performance measures identified and selected by DCH for validation. All performance measures were selected from the Centers for Medicare & Medicaid Services' (CMS) Initial Core Set of Children's Health Care Quality Measures,¹ the Initial Core Set of Health Care Quality Measures for Adults Enrolled in Medicaid,² or the Agency for Healthcare Research and Quality (AHRQ). The measurement period was identified by DCH as calendar year (CY) 2012 for all measures except the two child core set dental measures. The dental measures were reported for federal fiscal year (FFY) 2012, which covered the time frame of October 1, 2011, through September 30, 2012, per CMS requirements. Table 2 lists the performance measures that HSAG validated and identifies who calculated the performance measure rates.

Table 2—List of CY 2012 Performance Measures for Peach State

	Performance Measure	Method	Specifications	Rate Calculation by:
1.	Annual Pediatric Hemoglobin (HbA1c) Testing (ages 5–17)	Hybrid ³	CMS Child Core Set	Peach State
2.	Annual Percentage of Asthma Patients with One or More Asthma-Related Emergency Room Visit (ages 2–20)	Admin	CMS Child Core Set	Peach State
3.	Cesarean Delivery Rate	Admin	AHRQ	Peach State
4.	Cesarean Rate for Nulliparous Singleton Vertex	Admin	CMS Child Core Set ⁴	Peach State
5.	Percentage of Eligibles that Received Dental Treatment Services	Admin	CMS Child Core Set	Peach State
6.	Percentage of Eligibles that Received Preventive Dental Services	Admin	CMS Child Core Set	Peach State
7.	Percentage of Live Births Weighing Less Than 2,500 Grams	Admin	CMS Child Core Set/AHRQ	Peach State
8.	Adult Asthma Admission Rate	Admin	CMS Adult Core Set	Peach State
9.	Chronic Obstructive Pulmonary Disease (COPD) Admission Rate	Admin	CMS Adult Core Set	Peach State
10.	Congestive Heart Failure Admission Rate	Admin	CMS Adult Core Set	Peach State
11.	Diabetes, Short-Term Complications Admission Rate	Admin	CMS Adult Core Set	Peach State

¹ The Centers for Medicare & Medicaid Services. Initial Core Set of Children's Health Care Quality Measures, November 2012.

² The Centers for Medicare & Medicaid Services. Initial Core Set of Health Care Quality Measures for Adults Enrolled in Medicaid, February 2013.

³ Hybrid measures require both administrative data and medical record review.

⁴ The CMS measure specifications were modified by HSAG.

In addition to the AHRQ and the CMS adult and child core set measures audited by HSAG, DCH required Peach State to report a selected set of Healthcare Effectiveness Data and Information Set (HEDIS®) measures to DCH. Peach State was required to contract with an NCQA-licensed audit organization and undergo an NCQA HEDIS Compliance Audit™. Final audited HEDIS measure results from NCQA's Interactive Data Submission System (IDSS) were submitted to HSAG and provided to DCH. Appendices D and E display the final audited HEDIS 2013 results for all required measures, covering the 2012 measurement period. HSAG will use these results in addition to the measures HSAG validated and displayed within this report as data sources for the annual EQR technical report.

HEDIS® is a registered trademark of the National Committee for Quality Assurance (NCQA).
HEDIS Compliance Audit™ is a trademark of the National Committee for Quality Assurance (NCQA).

Description of Validation Activities

Pre-Audit Strategy

HSAG conducted the validation activities as outlined in the CMS performance measure validation protocol. To complete the validation activities for Peach State, HSAG obtained a list of the measures that were selected by DCH for validation.

HSAG then prepared a document request letter that was submitted to Peach State outlining the steps in the performance measure validation process. The document request letter included a request for source code for each performance measure; a completed HEDIS 2013 Record of Administration, Data Management, and Processes (Roadmap); and any additional supporting documentation necessary to complete the audit. HSAG responded to Roadmap-related questions received directly from Peach State during the pre-on-site phase.

For the on-site visit, HSAG prepared an agenda describing all visit activities and indicating the type of staffing needed for each session. HSAG provided the agenda to Peach State approximately one week prior to the on-site visit. HSAG also conducted a pre-on-site conference call with Peach State to discuss any outstanding Roadmap questions and on-site visit activity expectations.

Validation Team

The HSAG Performance Measure Validation Team was composed of a lead auditor and validation team members. HSAG assembled the team based on the skills required for the validation and requirements of Peach State. Some team members, including the lead auditor, participated in the on-site meetings at Peach State; others conducted their work at HSAG's offices. Table 3 lists the validation team members, their positions, and their skills and expertise.

Table 3—Validation Team

Name and Role	Skills and Expertise
Patience Hoag, RHIT, CHCA, CHDA, CCS, CCS-P, CPHQ <i>Lead Auditor</i>	Certified HEDIS auditor, certified coder; HEDIS knowledge, interviewing skills, data analysis, abstraction, tool development, and quality improvement.
Judy Yip, PhD <i>Source Code Review Manager and Audit Specialist, Audits</i>	Auditing experience, HEDIS knowledge, performance measure knowledge, and source code review management.
Tammy GianFrancisco <i>Project Leader, Audits</i>	Performance measure validation coordination, communication, and scheduling.

Technical Methods of Data Collection and Analysis

The CMS performance measures validation protocol identifies key types of data that should be reviewed as part of the validation process. The following list describes the type of data collected and how HSAG conducted an analysis of these data:

- ◆ **NCQA's HEDIS 2013 Roadmap:** Peach State completed and submitted the required and relevant portions of its Roadmap for review by the validation team. The validation team used responses from the Roadmap to complete the pre-on-site assessment of information systems.
- ◆ **Source code (programming language) for performance measures:** Peach State contracted with Inovalon, an NCQA-Certified software vendor, to calculate rates for both HEDIS and non-HEDIS measures. The source code review was conducted via a Web-assisted session where Inovalon explained the process and source code to HSAG's source code review team.
- ◆ **Supporting documentation:** HSAG requested documentation that would provide reviewers with additional information to complete the validation process, including policies and procedures, file layouts, system flow diagrams, system log files, and data collection process descriptions. The validation team reviewed all supporting documentation, identifying issues or areas needing clarification for further follow-up.

On-Site Activities

HSAG conducted an on-site visit with Peach State on April 18, 2013. HSAG collected information using several methods, including interviews, system demonstration, review of data output files, primary source verification, observation of data processing, and review of data reports. The on-site visit activities are described as follows:

- ◆ **Opening meeting:** The opening meeting included an introduction of the validation team and key Peach State staff members involved in the performance measure activities. The review purpose, the required documentation, basic meeting logistics, and queries to be performed were discussed.
- ◆ **Evaluation of system compliance:** The evaluation included a review of the information systems, focusing on the processing of claims and encounter data, provider data, patient data, and inpatient data. Additionally, the review evaluated the processes used to collect and calculate the performance measure rates, including accurate numerator and denominator identification and algorithmic compliance (which evaluated whether rate calculations were performed correctly, all data were combined appropriately, and numerator events were counted accurately).
- ◆ **Review of Roadmap and supporting documentation:** The review included processes used for collecting, storing, validating, and reporting performance measure rates. This session was designed to be interactive with key Peach State staff members so that the validation team could obtain a complete picture of all the steps taken to generate the performance measure rates. The goal of the session was to obtain a confidence level as to the degree of compliance with written documentation compared to the actual process. HSAG conducted interviews to confirm findings from the documentation review, expand or clarify outstanding issues, and ascertain that written policies and procedures were used and followed in daily practice.

- ◆ **Overview of data integration and control procedures:** The overview included discussion and observation of source code logic, a review of how all data sources were combined, and a review of how the analytic file was produced for the reporting of selected performance measure rates. HSAG performed primary source verification to further validate the output files and reviewed backup documentation on data integration. HSAG also addressed data control and security procedures during this session.
- ◆ **Closing conference:** The closing conference included a summation of preliminary findings based on the review of the Roadmap and the on-site visit, and revisited the documentation requirements for any post-visit activities.

HSAG conducted several interviews with key Peach State staff members who were involved with performance measure reporting. Table 4 lists key Peach State interviewees:

Table 4—List of Peach State Health Plan Interviewees

Name	Title
Alfred Miller	Data Analyst III
Detra Friley-Clark	Director, Provider Data and Credentialing
Joyce McElwain	Senior Director, Quality Improvement
Ron Purisima	Manager, Quality Analytics
Dean Greeson	Senior Vice President, Medical Director

Andrea Stuckey-Hendley	Project Manager, Compliance
Chevron Cardenas	Senior Director, Member and Provider Services
Heather House	Farmington Claims Supervisor
Jessica Silver	Corporate Director, Encounters
Kimberly Weakley	Vice President, Provider Solutions
Debra Peterson-Smith	Senior Vice President, Operations
Luke Ferguson	Encounters Analyst
Tonnette Tucker	Supervisor, Provider Data Management
Inez Sarves	Contract Management
Wanda Lee	Member Service Manager
Jason Rosen	Senior Health Economics Analyst
Brian Daming	Information Technology QSI Technician
Valerie Liserio-Eike	Quality Improvement Specialist—HEDIS
Yolanda Spivey	Senior Director, Data Analytics

Data Integration, Data Control, and Performance Measure Documentation

There are several aspects crucial to the calculation of performance measure rates. These include data integration, data control, and documentation of performance measure calculations. Each of the following sections describes the validation processes used and the validation findings. For more detailed information, see Appendix A of this report.

Data Integration

Accurate data integration is essential for calculating valid performance measure rates. The steps used to combine various data sources (including claims/encounter data, eligibility data, and other administrative data) must be carefully controlled and validated. HSAG validated the data integration process used by Peach State, which included a review of file consolidations or extracts, a comparison of source data to warehouse files, data integration documentation, source code, production activity logs, and linking mechanisms. Overall, the validation team determined that the data integration processes in place at Peach State were:

- Acceptable
- Not acceptable

Data Control

Peach State's organizational infrastructure must support all necessary information systems; and its quality assurance practices and backup procedures must be sound to ensure timely and accurate processing of data, and to provide data protection in the event of a disaster. HSAG validated the data control processes Peach State used which included a review of disaster recovery procedures, data backup protocols, and related policies and procedures. Overall, the validation team determined that the data control processes in place at Peach State were:

- Acceptable
- Not acceptable

Performance Measure Documentation

Sufficient, complete documentation is necessary to support validation activities. While interviews and system demonstrations provided supplementary information, the majority of the validation review findings were based on documentation provided by Peach State. HSAG reviewed all related documentation, which included the completed Roadmap, job logs, computer programming code, output files, work flow diagrams, narrative descriptions of performance measure calculations, and other related documentation. Overall, the validation team determined that the documentation of performance measure calculations by Peach State was:

- Acceptable
- Not acceptable

Validation Results

The validation team evaluated Peach State's data systems for processing of each type of data used for reporting DCH performance measure rates. General findings are indicated below:

Medical Service Data (Claims/Encounters)

There were no concerns with Peach State's medical service data system or processes. The plan continued to use Amisys as its transactional system, which had sufficient edits in place to ensure data were complete and accurate upon entry/loading into the system. All data elements needed for reporting the performance measures were captured. All providers submitted data in standard formats, using industry standard codes. Over 90 percent of Peach State's providers and facilities submitted claims data electronically, which instilled additional confidence in data accuracy. Paper claims were received at the corporate office in Farmington, Missouri; scanned via optical character recognition (OCR) technology; and loaded into Amisys for processing. Minimal data were manually entered into Amisys. The plan's reimbursement structure is fee-for-service (FFS), which serves as a built-in incentive for providers to submit data to the plan. Peach State's claims processors are audited on an ongoing basis, and all processors met standards for the measurement year for payment, financial, and processing accuracy. The entire process from data submission to claims processing is highly automated, with very little manual intervention.

The plan successfully transitioned to the 5010 format, and most of its providers had also transitioned during 2012. Claims submitted by providers using the 4010 format were rejected for reimbursement, which encouraged providers to submit claims with the updated format. The plan was also proactively planning for ICD-10 implementation, having begun mapping and other preparations for the transition in the code set in 2014.

Although the plan's reimbursement structure helps ensure that providers are submitting complete data, the plan also ran various monitoring reports to track providers' claim submission volumes. If a high-volume provider were to suspend submission of claims to the plan, this action would be quickly identified.

Peach State used DentaQuest to process its dental claims. Although DentaQuest underwent a system transition during late 2011, the transition went smoothly, and there were no issues related to data loss. Thorough testing prior to implementation included running dual systems and comparing results to historical data. DentaQuest sent encounter files to Peach State twice each month, and the encounters were then loaded to the data warehouse. There were no issues or concerns with the completeness or integrity of the data in 2012, as ongoing monitoring of volume occurs as a part of data receipt and loading.

Peach State contracted with US Script to serve as its pharmacy vendor. Data were submitted to Peach State at least weekly and included paid, denied, and reversal claims data. These data were loaded to the plan's data warehouse for use in measure reporting. There were no issues with data format, timeliness, or completeness in 2012.

A recommendation for more formal documentation of vendor monitoring was made during the previous performance measure validation review and discussed during the on-site review. Peach State conducted meetings with each of its vendors monthly (weekly for those not meeting performance standards) to discuss any issues or concerns, and maintained documentation of this interaction. The plan's Finance department also performed oversight of pharmacy transactional and payment volumes, which was documented. In addition, the plan submitted a comprehensive document for auditor review, *GA CMO Encounter Report*. The report was produced by an accounting firm and showed detailed financial information based on data provided by each of the plan's vendors.

Enrollment Data

Peach State had effective processes for acquiring and loading enrollment data from the State's fiscal agent. The plan had a highly electronic, well-coordinated, and long-standing method for acquisition and loading of State enrollment files. Daily 834 changes/addition files were acquired via secure file transfer protocol, processed for edit checks, and then uploaded into Amisys, the transactional system. Error reports were generated identifying discrepancies that needed to be manually worked. The plan also received a full monthly enrollment file, which included demographic changes, terminations, additions, and voids. The State's fiscal agent also provided an end-of-month adjustment file that included voided transactions (e.g., the member was not or never was eligible). Any discrepancies requiring research were identified through automated reports and corrected efficiently, with monthly reporting to the State for any member data discrepancies that had not been corrected. There were no backlogs during 2012. The auditor had no concerns with Peach State's enrollment data.

Provider Data

There were no concerns with the plan's provider data system or processes. The plan used the Portico system to house provider data. This software application interfaces seamlessly with Amisys, which helps to eliminate reconciliation concerns. Peach State conducts 100 percent validation of all data entry of its direct providers and continually monitors delegated entities' data. The number of primary care physicians increased during 2012 due to the plan's expansion initiative, which delayed some provider data entry. The delay was quickly remedied, however, because staffing was immediately increased to accommodate the influx.

Medical Record Review Process

Peach State was fully compliant with the medical record review reporting requirements. Peach State used the vendor, RecordFlow, to procure the medical records, and another vendor, Aquare Health Data Management, to abstract and enter the medical record data into the Aquare hybrid tool. HSAG reviewed the Aquare hybrid tool and corresponding instructions. Aquare's reviewer qualifications, training, and oversight were appropriate. Peach State's oversight of the medical record abstraction and procurement vendors was appropriate. Due to reporting a new State-required hybrid measure, a convenience sample was required and subsequently passed review. Peach State passed the medical record review validation process for the *Annual Pediatric Hemoglobin (HbA1c) Testing (ages 5–17)* measure.

Supplemental Data

Peach State did not use supplemental data to augment rates for the measures under the scope of the audit; therefore, this standard is not applicable.

Data Integration

Peach State contracted with Inovalon to generate the various non-HEDIS performance measure rates for the measures under the scope of the audit, as well as the plan's HEDIS rates. Staff members at Peach State responsible for measure reporting activities were very experienced and well-versed in all aspects of the performance measure reporting process, and they were very responsive to any and all pre-onsite, on-site, and post-onsite requests.

For data integration, all source data were pulled from Peach State's enterprise data warehouse into a staging database prior to loading into Inovalon's certified software, Quality Spectrum Insight (QSI). There were communications with Inovalon to ensure that all data elements needed for deriving the measures were provided. For each file provided to Inovalon, row counts and other automated reports were run to ensure that data transfers into QSI were completed, and no data were lost or corrupted.

In addition to the certified software for HEDIS measures, Inovalon produced the programming code based on the performance measure specifications for the non-HEDIS measures. HSAG reviewed and approved Inovalon's programming code for the non-HEDIS performance measures. There were no further concerns with Peach State's data integration system or processes to generate its rates.

Performance Measure Specific Findings

Based on all validation activities, the HSAG Performance Measure Validation Team determined validation results for each performance measure rate. Table 5 displays the key review results. For detailed information, see Appendix B of this report.

Table 5—Key Review Results for Peach State Health Plan

Performance Measures		Key Review Findings
1.	Annual Pediatric Hemoglobin (HbA1c) Testing (ages 5–17)	No concerns were identified.
2.	Annual Percentage of Asthma Patients with One or More Asthma-Related Emergency Room Visit (ages 2–20)	No concerns were identified.
3.	Cesarean Delivery Rate	No concerns were identified.
4.	Cesarean Rate for Nulliparous Singleton Vertex	No concerns were identified.
5.	Percentage of Eligibles that Received Dental Treatment Services	No concerns were identified.
6.	Percentage of Eligibles that Received Preventive Dental Services	No concerns were identified.
7.	Percentage of Live Births Weighing Less Than 2,500 Grams	No concerns were identified.
8.	Adult Asthma Admission Rate	No concerns were identified.
9.	Chronic Obstructive Pulmonary Disease (COPD) Admission Rate	No concerns were identified.
10.	Congestive Heart Failure Admission Rate	No concerns were identified.
11.	Diabetes, Short-Term Complications Admission Rate	No concerns were identified.

Validation Findings

HSAG provided an audit designation for each performance measure as defined in Table 6:

Table 6—Validation Findings Definitions

Report (R)	The organization followed the specifications and produced a reportable rate or result for the measure.
Not Reportable (NR)	The calculated rate was materially biased, or the organization chose not to report the measure, or the organization was not required to report the measure.

According to the CMS protocol, the validation finding for each measure is determined by the magnitude of the errors detected for the audit elements, not by the number of audit elements determined to be “Not Reportable.” Consequently, it is possible that an error for a single audit element may result in a designation of “NR” because the impact of the error biased the reported performance measure rate by more than 5 percentage points. Conversely, it is also possible that several audit element errors may have little impact on the reported rate, resulting in a measure designation of “R.”

Table 7 shows the final validation findings for Peach State for each performance measure rate. For additional information regarding performance measure rates, see Appendix C of this report.

Table 7—Key Review Results for Peach State Health Plan

	Performance Measures	Validation Finding
1.	Annual Pediatric Hemoglobin (HbA1c) Testing (ages 5–17)	R
2.	Annual Percentage of Asthma Patients with One or More Asthma-Related Emergency Room Visit (ages 2–20)	R
3.	Cesarean Delivery Rate	R
4.	Cesarean Rate for Nulliparous Singleton Vertex	R
5.	Percentage of Eligibles that Received Dental Treatment Services	R
6.	Percentage of Eligibles that Received Preventive Dental Services	R
7.	Percentage of Live Births Weighing Less Than 2,500 Grams	R
8.	Adult Asthma Admission Rate	R
9.	Chronic Obstructive Pulmonary Disease (COPD) Admission Rate	R
10.	Congestive Heart Failure Admission Rate	R
11.	Diabetes, Short-Term Complications Admission Rate	R

Appendix A. Data Integration and Control Findings for Peach State Health Plan

Documentation Worksheet

CMO Name:	Peach State Health Plan
On-Site Visit Date:	April 18, 2013
Reviewers:	Patience Hoag, RHIT, CHCA, CHDA, CCS, CCS-P, CPHQ

Table A-1—Data Integration and Control Findings for Peach State Health Plan

Data Integration and Control Element	Met	Not Met	N/A	Comments
Accuracy of data transfers to assigned performance measure data repository.				
The CMO accurately and completely processes transfer data from the transaction files (e.g., membership, provider, encounter/claims) into the performance measure data repository used to keep the data until the calculations of the performance measures have been completed and validated.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Samples of data from the performance measure data repository are complete and accurate.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Accuracy of file consolidations, extracts, and derivations.				
The CMO's processes to consolidate diversified files and to extract required information from the performance measure data repository are appropriate.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Actual results of file consolidations or extracts are consistent with those that should have resulted according to documented algorithms or specifications.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Procedures for coordinating the activities of multiple subcontractors ensure the accurate, timely, and complete integration of data into the performance measure database.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Computer program reports or documentation reflect vendor coordination activities, and no data necessary to performance measure reporting are lost or inappropriately modified during transfer.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
If the CMO uses a performance measure data repository, its structure and format facilitates any required programming necessary to calculate and report required performance measures.				
The performance measure data repository's design, program flow charts, and source codes enable analyses and reports.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Proper linkage mechanisms are employed to join data from all necessary sources (e.g., identifying a member with a given disease/condition).	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Table A-1—Data Integration and Control Findings for Peach State Health Plan

Data Integration and Control Element	Met	Not Met	N/A	Comments
Assurance of effective management of report production and of the reporting software.				
Documentation governing the production process, including CMO production activity logs and the CMO staff review of report runs, is adequate.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Prescribed data cutoff dates are followed.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
The CMO retains copies of files or databases used for performance measure reporting in case results need to be reproduced.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
The reporting software program is properly documented with respect to every aspect of the performance measure data repository, including building, maintaining, managing, testing, and report production.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
The CMO's processes and documentation comply with the CMO standards associated with reporting program specifications, code review, and testing.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Reviewer Worksheets

CMO Name:	Peach State Health Plan
On-Site Visit Date:	April 18, 2013
Reviewers:	Patience Hoag, RHIT, CHCA, CHDA, CCS, CCS-P, CPHQ

Table B-1—Denominator Validation Findings for Peach State Health Plan

Audit Element	Met	Not Met	N/A	Comments
For each of the performance measures, all members of the relevant populations identified in the performance measure specifications are included in the population from which the denominator is produced.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Adequate programming logic or source code exists to appropriately identify all relevant members of the specified denominator population for each of the performance measures.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
The CMO correctly calculates member months and member years if applicable to the performance measure.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
The CMO properly evaluates the completeness and accuracy of any codes used to identify medical events, such as diagnoses, procedures, or prescriptions, and these codes are appropriately identified and applied as specified in each performance measure.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
If any time parameters are required by the specifications of the performance measure, they are followed (e.g., cutoff dates for data collection, counting 30 calendar days after discharge from a hospital).	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Exclusion criteria included in the performance measure specifications are followed.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Systems or methods used by the CMO to estimate populations when they cannot be accurately or completely counted (e.g., newborns) are valid.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Population estimates were not necessary.

Table B-2—Numerator Validation Findings for Peach State Health Plan

Audit Element	Met	Not Met	N/A	Comments
The CMO uses the appropriate data, including linked data from separate data sets, to identify the entire at-risk population.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Qualifying medical events (such as diagnoses, procedures, prescriptions, etc.) are properly identified and confirmed for inclusion in terms of time and services.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
The CMO avoids or eliminates all double-counted members or numerator events.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Any nonstandard codes used in determining the numerator are mapped to a standard coding scheme in a manner that is consistent, complete, and reproducible, as evidenced by a review of the programming logic or a demonstration of the program.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Nonstandard codes were not used or reported.
If any time parameters are required by the specifications of the performance measure, they are followed (i.e., the measured event occurred during the time period specified or defined in the performance measure).	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Appendix C. Performance Measure Results for Peach State Health Plan

Performance Measure 1—Annual Pediatric Hemoglobin (HbA1c) Testing (ages 5–17)

Table C-1—Performance Measure 1 for Peach State Health Plan	
	Rate
Annual Pediatric Hemoglobin (HbA1c) Testing (ages 5–17)	83.38%

Performance Measure 2—Annual Percentage of Asthma Patients with One or More Asthma-Related Emergency Room Visit (ages 2–20)

Table C-2—Performance Measure 2 for Peach State Health Plan

Diabetes, Short-Term Complications Admission Rate	25.52

Appendix D. Final Audited HEDIS Rates for Peach State Health Plan

**Table D-1—CMO Audited Calendar Year 2012 HEDIS Performance Measure Report
for Peach State Health Plan**

Measure	CMO Rate
Adolescent Well-Care Visits	43.98%
Adults' Access to Preventive/Ambulatory Health Services—Ages 20–44 Years	84.94%
Adults' Access to Preventive/Ambulatory Health Services—Ages 45–64 Years	89.36%
Adults' Access to Preventive/Ambulatory Health Services—Ages 65+ Years	Denominator fewer than 30
Adults' Access to Preventive/Ambulatory Health Services—Total	85.46%
Adult BMI Assessment	66.59%
Annual Dental Visit—Ages 2–3 Years	43.96%
Annual Dental Visit—Ages 4–6 Years	76.01%
Annual Dental Visit—Ages 7–10 Years	78.32%
Annual Dental Visit—Ages 11–14 Years	70.02%
Annual Dental Visit—Ages 15–18 Years	59.42%
Annual Dental Visit—Ages 19–21 Years	38.85%
Annual Dental Visit—Total	67.92%
Annual Monitoring for Patients on Persistent Medications—ACE Inhibitors or ARBs	87.92%
Annual Monitoring for Patients on Persistent Medications—Anticonvulsants	63.41%
Annual Monitoring for Patients on Persistent Medications—Digoxin	Denominator fewer than 30
Annual Monitoring for Patients on Persistent Medications—Diuretics	87.90%
Annual Monitoring for Patients on Persistent Medications—Total	86.87%
Antibiotic Utilization—Percent of Antibiotics of Concern of All Antibiotic Scrips—Total	40.84%
Antidepressant Medication Management—Effective Acute Phase Treatment	43.92%
Antidepressant Medication Management—Effective Continuation Phase Treatment	28.13%
Appropriate Testing for Children with Pharyngitis	73.80%

**Table D-1—CMO Audited Calendar Year 2012 HEDIS Performance Measure Report
for Peach State Health Plan**

Measure	CMO Rate
Appropriate Treatment for Children with Upper Respiratory Infection (URI)*	80.47%
Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis*	17.31%
Breast Cancer Screening	56.46%
Call Answer Timeliness	82.84%
Cervical Cancer Screening	73.54%
Cholesterol Management for Patients with Cardiovascular Conditions—LDL-C Screening	74.55%
Cholesterol Management for Patients with Cardiovascular Conditions—LDL-C Control	23.64%
Childhood Immunization Status—Combo 3	76.74%
Childhood Immunization Status—Combo 6	33.26%
Childhood Immunization Status—Combo 10	27.91%
Children's and Adolescents' Access to Primary Care Providers—Ages 12–24 Months	96.98%
Children's and Adolescents' Access to Primary Care Practitioners — Ages 25 Months–6 Years	90.43%
Children's and Adolescents' Access to Primary Care Practitioners — Ages 7–11 Years	90.81%
Children's and Adolescents' Access to Primary Care Practitioners — Ages 12–19 Years	87.97%
Chlamydia Screening in Women	59.60%
Comprehensive Diabetes Care—Blood Pressure Control <140/80	27.30%
Comprehensive Diabetes Care—Blood Pressure Control <140/90	53.74%
Comprehensive Diabetes Care—Eye Exam	57.22%
Comprehensive Diabetes Care—HbA1c Control <7.0	27.61%
Comprehensive Diabetes Care—HbA1c Control <8.0	39.13%
Comprehensive Diabetes Care—HbA1c Poor Control >9.0 **	55.48%
Comprehensive Diabetes Care—HbA1c Testing	79.83%
Comprehensive Diabetes Care—LDL-C Screening	67.83%
Comprehensive Diabetes Care—LDL-C Control	20.35%
Comprehensive Diabetes Care—Medical Attention to Nephropathy	73.39%

**Table D-1—CMO Audited Calendar Year 2012 HEDIS Performance Measure Report
for Peach State Health Plan**

Measure	CMO Rate
Controlling High Blood Pressure	49.78%
Disease Modifying Anti-Rheumatic Drug Therapy in Rheumatoid Arthritis	68.42%
Follow-Up After Hospitalization for Mental Illness—30 Day Follow-Up	70.79%
Follow-Up After Hospitalization for Mental Illness—7 Day Follow-Up	52.52%
Follow-Up Care for Children Prescribed ADHD Medication—Initiation Phase	43.73%
Follow-Up Care for Children Prescribed ADHD Medication—Continuation and Maintenance Phase	58.60%
Frequency of Ongoing Prenatal Care—< 21 Percent	8.62%
Frequency of Ongoing Prenatal Care—21–40 Percent	4.43%
Frequency of Ongoing Prenatal Care—41–60 Percent	6.99%
Frequency of Ongoing Prenatal Care—61–80 Percent	14.92%
Frequency of Ongoing Prenatal Care—81+ Percent	65.03%
Human Papillomavirus Vaccine for Female Adolescents	17.82%
Immunizations for Adolescents—Combo 1	71.30%
Initiation and Engagement of Alcohol and Other Drug Dependence Treatment—Initiation of Treatment	39.74%
Initiation and Engagement of Alcohol and Other Drug Dependence Treatment—Engagement of Treatment	8.27%
Inpatient Utilization—General Hospital/Acute Care—Total	Rates reported in Appendix F
Lead Screening in Children	74.19%
Asthma Medication Ratio—Total: 5–64 Years	60.77%
Medication Management for People with Asthma—Total—Medication Compliance 50%	40.08%
Medication Management for People with Asthma—Total—Medication Compliance 75%	18.44%
Persistence of Beta-Blocker Treatment After a Heart Attack	Denominator fewer than 30
Pharmacotherapy Management of COPD Exacerbation—Systemic Corticosteroid	63.64%
Pharmacotherapy Management of COPD Exacerbation—Bronchodilator	78.18%
Prenatal and Postpartum Care—Postpartum Care	71.56%
Prenatal and Postpartum Care—Timeliness of Prenatal Care	86.71%

**Table D-1—CMO Audited Calendar Year 2012 HEDIS Performance Measure Report
for Peach State Health Plan**

Measure	CMO Rate
Use of Appropriate Medications for People with Asthma—Ages 5–11 Years	90.58%
Use of Appropriate Medications for People with Asthma—Ages 12–18 Years	88.40%
Use of Appropriate Medications for People with Asthma—Ages 19–50 Years	72.39%
Use of Appropriate Medications for People with Asthma—Ages 51–64 Years	Denominator fewer than 30
Use of Appropriate Medications for People with Asthma—Total	89.22%
Use of Imaging Studies for Low Back Pain*	78.26%
Use of Spirometry Testing in the Assessment and Diagnosis of COPD	40.82%
Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents—Total BMI	47.69%
Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents—Total Nutrition	56.02%
Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents—Total Physical Activity	47.69%
Well-Child Visits in the First 15 Months of Life—Zero Visits	4.63%
Well-Child Visits in the First 15 Months of Life—One Visit	3.24%
Well-Child Visits in the First 15 Months of Life—Two Visits	4.86%
Well-Child Visits in the First 15 Months of Life—Three Visits	4.63%
Well-Child Visits in the First 15 Months of Life—Four Visits	11.34%
Well-Child Visits in the First 15 Months of Life—Five Visits	15.97%
Well-Child Visits in the First 15 Months of Life—Six or More Visits	55.32%
Well-Child Visits in the Third, Fourth, Fifth, and Sixth Years of Life	67.59%
Ambulatory Care	Rates reported in Appendix F
Board Certification	Rates reported in Appendix F
Enrollment by Product Line—Total	Rates reported in Appendix F
Enrollment by State	Rates reported in Appendix F
Frequency of Selected Procedures	Rates reported in Appendix F
Identification of Alcohol and Other Drug Services—Total	Rates reported in Appendix F
Language Diversity of Membership	Rates reported in Appendix F
Mental Health Utilization	Rates reported in Appendix F

**Table D-1—CMO Audited Calendar Year 2012 HEDIS Performance Measure Report
for Peach State Health Plan**

Measure	CMO Rate
Race/Ethnicity Diversity of Membership	Rates reported in Appendix F
Total Membership	Rates reported in Appendix F
Weeks of Pregnancy at Time of Enrollment	Rates reported in Appendix F

* The measure is reported as an inverted rate. A higher rate indicates appropriate treatment of children with URI, for example (i.e., the proportion for whom antibiotics were not prescribed). The rate is calculated as 1 minus the numerator divided by the eligible population.

** Lower rate is better.

2013 Validation of Performance Measures Rate Reporting Template	
CMO Name:	Peach State Health Plan
CMO Contact Name and Title:	Joyce McElwain, Senior Director of QI
CMO Contact Email:	jmcclwain@centene.com
Comments:	FINAL Rates for 5/24/2013

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Cesarean Delivery Rate	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (administrative)	A
Eligible population	14830
Numerator events by administrative data	4451
Reported rate	30.01

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Percentage of Eligibles that Received Preventive Dental Services	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (administrative)	A
Eligible population	318356
Numerator events by administrative data	153003
Reported rate	48.06%

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Percentage of Eligibles that Received Dental Treatment Services	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (administrative)	A
Eligible population	318356
Numerator events by administrative data	73680
Reported rate	23.14%

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Cesarean Rate for Nulliparous Singleton Vertex	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (administrative)	A
Eligible population	5410
Numerator events by administrative data	1062
Reported rate	19.63%

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Percentage of Live Births Weighing Less Than 2,500 Grams	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (administrative)	A
Eligible population	16875
Numerator events by administrative data	1440
Reported rate	8.53

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Annual Percentage of Asthma Patients with One or More Asthma-Related Emergency Room Visit (ages 2-20)	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (administrative)	A
Eligible population	34088
Numerator events by administrative data	4309
Reported rate	12.64%

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Annual Pediatric Hemoglobin (HbA1c) Testing (ages 5-17)	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (hybrid)	H
Eligible population	368
Denominator	361
Numerator events by administrative data	295
Numerator events by medical records	6
Numerator Total	301
Reported rate	83.38%

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Diabetes, Short-Term Complications Admission Rate	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (administrative)	A
Eligible population	199874
Numerator events by administrative data	51
Reported rate (Per 100,000 Members)	26

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Chronic Obstructive Pulmonary Disease (COPD) Admission Rate	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (administrative)	A
Eligible population	90097
Numerator events by administrative data	17
Reported rate (Per 100,000 Members)	19

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Congestive Heart Failure (CHF) Admission Rate	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (administrative)	A
Eligible population	90097
Numerator events by administrative data	23
Reported rate (Per 100,000 Members)	26

Appendix E: Department of Community Health, State of Georgia
Validated CY 2012 Performance Measures for Peach State

Adult Asthma Admission Rate	
Data Element	General Measure Data
Reporting Year	2013
Data collection methodology (administrative)	A
Eligible population	90097
Numerator events by administrative data	47
Reported rate (Per 100,000 Members)	52
